

China Packaging Materials Industry Forum (The 6th International PET Industry Forum)

Oct 25-26, 2018 Hangzhou China

Invitation

China is world's largest packaging producer and consumer. So far, plastic packaging takes up nearly 40% of the gross value of packaging industry, with high-value added and differentiated products emerging constantly. Plastic packaging is playing an irreplaceable role in sectors like food, beverage, daily necessities and other fields. In 2018, how will packaging industry evolve?

Among which, water grade PET chip is the major plastic packaging material. After years' of destocking, de-capacity and exploration of overseas market share, PET resin industry has ushered in its profitable era and sustainable developing period. In Q2 2018, PET resin price created 5-year new high, with RMB trading level breaching above 10000yuan/mt while USD level climbing above \$1300/mt. Factory profit surged to more than 2000yuan/mt. Though PET resin value declined in Q3, profit maintained decent. With capacity expansion cycle arriving, Will PET resin industry continue to hold its momentum later on, with capacity expansion cycle arriving?

Zhejiang Huarui Information Consulting Co, Ltd. (CCFGroup) will hold China Packaging Materials Industry Forum (The 6th International PET Industry Forum) in Hangzhou during Oct 25-26, 2018. The spotlight of the conference will be on future development trend of bottle grade PET resin industry. We are looking forward to meeting you in Hangzhou!
